\* Denotes non-income producing security.

(1) Newtek values each unguaranteed portion of SBA 7(a) performing loans (“Loan”) using a discounted cash flow analysis which projects future cash flows and incorporates projections for Loan pre-payments and Loan defaults using historical portfolio data. The data predicts future prepayment and default probability on curves which are based on Loan age. The recovery assumption for each Loan is specific to the discounted valuation of the collateral supporting that Loan. Each Loan’s cash flow is discounted at a rate which approximates a market yield. The Loans were originated under the SBA 7(a) program and conform to the underwriting guidelines in effect at their time of origination. Newtek has been awarded Preferred Lender Program (“PLP”) status from the SBA. The portions of these Loans are not guaranteed by the SBA. Individual loan participations can be sold to institutions which have been granted an SBA 750 license. Loans can also be sold as a pool of loans in a security form to qualified investors.

(2) Prime Rate is equal to 3.25% as of June 30, 2015.

(3) Newtek values non-performing SBA 7(a) loans using a discounted cash flow analysis of the underlying collateral which supports the loan. Net recovery of collateral, (fair value less cost to liquidate) is applied to the discounted cash flow analysis based upon a time to liquidate estimate. Modified loans are valued based upon current payment streams and are re-amortized at the end of the modification period.

- (4) Newtek values guaranteed performing SBA 7(a) loans using the secondary SBA 7(a) market as a reference point. Newtek routinely sells performing SBA 7(a) loans into this secondary market. Guaranteed portions of SBA 7(a) loans partially funded as of the valuation date are valued using level two inputs as disclosed in Note 6.
- (5) Controlled Investments are disclosed above as equity investments (except as otherwise noted) in those companies that are “Controlled Investments” of the Company as defined in the Investment Company Act of 1940. A company is deemed to be a “Controlled Investment” of Newtek Business Services Corp. if Newtek Business Services Corp. owns more than 25% of the voting securities of such company. See Note 4 in the accompanying notes to the condensed consolidated financial statements for transactions during the six months ended June 30, 2015 in which the Company is deemed to control.
- (6) 50% owned by Exponential of New York, LLC (a subsidiary of Newtek Business Services Corp.), 50% owned by non-affiliate. The term loan is past its original maturity date and currently in default. As such, the fair value of the investment is zero.
- (7) 96.11% owned by Wilshire Partners, LLC (a subsidiary of Newtek Business Services Corp.), 3.89% owned by Newtek Business Services Corp.
- (8) 100% owned by Wilshire Texas Partners I, LLC (a subsidiary of Newtek Business Services Corp.).
- (9) 26.15% owned by Wilshire New York Partners IV, LLC (a subsidiary of Newtek Business Services Corp.), 6.17% owned by Exponential of New York, LLC (a subsidiary of Newtek Business Services Corp.), 23.83% owned by Wilshire New York Partners V, LLC (a subsidiary of Newtek Business Services Corp.) and 43.85% owned by Newtek Business Services Corp.
- (10) 95% owned by Wilshire Alabama Partners, LLC (a subsidiary of Newtek Business Services Corp.), 5% owned by non-affiliate.
- (11) 50% owned by Wilshire New York Partners V, LLC (a subsidiary of Newtek Business Services Corp.), 30% owned by Wilshire Holdings II, Inc. (a subsidiary of Newtek Business Services Corp.), and 20% owned by non-affiliate.
- (12) 66.7% owned by Wilshire Texas Partners I, LLC (a subsidiary of Newtek Business Services Corp.), 33.3% owned by non-affiliate.
- (13) Zero cost basis is reflected as the portfolio company was organized by the Company and incurred internal legal costs to organize the entity and immaterial external filing fees which were expensed when incurred.
- (14) 95% owned by Wilshire DC Partners, LLC (a subsidiary of Newtek Business Services Corp.), 5% owned by non-affiliate.
- (15) 49% owned by Wilshire Colorado Partners, LLC (a subsidiary of Newtek Business Services Corp.), 51% owned by non-affiliate.
- (16) All of the Company's investments are in entities which are organized under the Laws of the United States and have a principal place of business in the United States.
- (17) Denotes a non-controlled entity.
- (18) Under the Investment Company Act of 1940, as amended, the Company may not acquire any non-qualifying assets unless, at the time the acquisition is made, qualifying assets represent at least 70% of the Company's total assets. At June 30, 2015, 4.2% of total assets are non qualifying assets.

(1) Newtek values each SBA 7(a) performing unguaranteed loan using a discounted cash flow analysis which projects future cash flows and incorporates projections for loan pre-payments and loan defaults using historical portfolio data. The data predicts future prepayment and default probability on curves which are based on loan age. The recovery assumption for each loan is specific to the discounted valuation of the collateral supporting that loan. Each loan's cash flow is discounted at a rate which approximates a market yield. The loans were originated under the SBA 7(a) program and conform to the underwriting guidelines in effect at their time of origination. Newtek has been awarded Preferred Lender Program (“PLP”) status from the SBA. The loans are not guaranteed by the SBA. Individual loan participations can be sold to institutions which have been granted an SBA 750 license. Loans can also be sold as a pool of loans in a security form to qualified investors.

(2) Prime Rate is equal to 3.25% as of December 31, 2014.

(3) Newtek values SBA 7(a) non-performing loans using a discounted cash flow analysis of the underlying collateral which supports the loan. Net recovery of collateral, (fair value less cost to liquidate) is applied to the discounted cash flow analysis based upon a time to liquidate estimate. Modified loans are valued based upon current payment streams and are re-amortized at the end of the modification period.

(4) Newtek values guaranteed SBA 7(a) performing loans using the secondary SBA 7(a) market as a reference point. Newtek routinely sells into this secondary market. Guaranteed portions, partially funded as of the valuation date are valued using level two inputs as disclosed in Note 6.

(5) Controlled Investments are disclosed above as equity investments (except as otherwise noted) in those companies that are “Controlled Investments” of the Company as defined in the Investment Company Act of 1940. A company is deemed to be a “Controlled Investment” of Newtek Business Services Corp. if Newtek Business Services Corp. owns more than 25% of the voting securities of such company.

**NEWTEK BUSINESS SERVICES CORP. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****NOTE 1—DESCRIPTION OF BUSINESS AND BASIS OF PRESENTATION:**

On November 12, 2014, Newtek Business Services, Inc. merged with and into Newtek Business Services Corp. ("NBS"), a newly-formed Maryland corporation, for the purpose of reincorporating in Maryland (the "Merger"), and thereafter filed an election to be regulated as a business development company ("BDC") under the Investment Company Act of 1940, as amended ("1940 Act"). This transaction is referred to as the "Conversion" or "BDC Conversion". All subsidiaries and controlled portfolio companies became the property of Newtek Business Services Corp. as part of the Merger. Except as otherwise noted, the terms "we," "us," "our," "Company" and "Newtek" refer to Newtek Business Services, Inc. prior to the Conversion and its successor, Newtek Business Services Corp. following the Conversion.

***Description of Business and Basis of Presentation for the Six Months Ended June 30, 2014 (Prior to BDC Conversion)***

Prior to the Conversion, Newtek Business Services, Inc. was a holding company for several wholly and majority-owned subsidiaries, including twelve certified capital companies which are referred to as Capcos, and several portfolio companies in which the Capcos own non-controlling or minority interests. The Company provides a "one-stop-shop" for business services to the small and medium-sized business market and uses state of the art web-based proprietary technology to be a low cost acquirer and provider of products and services. The Company partners with companies, credit unions, and associations to offer its services.

The Company's principal business segments were:

**Electronic Payment Processing:** Marketing third party credit card processing and check approval services to the small and medium-sized business market under the name of Newtek Merchant Solutions.

**Managed Technology Solutions:** CrystalTech Web Hosting, Inc., d/b/a Newtek Technology Services ("NTS"), offers shared and dedicated web hosting, data storage and backup services, cloud computing plans and related services to the small and medium-sized business market.

**Small Business Finance:** The segment was comprised of Small Business Lending, Inc., ("SBL") a lender service provider for third-parties that primarily services government guaranteed U.S. Small Business Administration ("SBA") loans and non-SBA loans; Newtek Small Business Finance, LLC ("NSBF"), a nationally licensed, SBA lender that originates, sells and services loans to qualifying small businesses, which are partially guaranteed by the SBA, and CDS Business Services, Inc. d/b/a Newtek Business Credit ("NBC") which provides receivable financing and management services.

**All Other:** Businesses formed from investments made through Capco programs and others which could not be aggregated with other operating segments, including insurance and payroll processing.

**Corporate Activities:** Corporate implements business strategy, directs marketing, provides technology oversight and guidance, coordinates and integrates activities of the segments, contracts with alliance partners, acquires customer opportunities, and owns our proprietary NewTracker® referral system. This segment includes revenue and expenses not allocated to other segments, including interest income, Capco management fee income and corporate operations expenses.

**Capco:** Twelve certified capital companies which invest in small and medium-sized businesses. They generate non-cash income from tax credits and non-cash interest expense and insurance expenses in addition to cash management fees.

The condensed consolidated financial statements of Newtek Business Services Corp., its subsidiaries and consolidated entities have been prepared by the Company in accordance with accounting principles generally accepted in the United States of America ("GAAP") and include all wholly and majority-owned subsidiaries, and several portfolio companies in which the Capcos own non-controlling interest, or those variable interest entities of which Newtek is considered to be the primary beneficiary. All intercompany balances and transactions have been eliminated in consolidation. Non-controlling interests are reported below net income (loss) under the heading "Net loss attributable to non-controlling interests" in the unaudited condensed consolidated statements of income prior to the BDC Conversion.

***Description of Business and Basis of Presentation for the Six Months Ended June 30, 2015 (Post BDC Conversion)***

Newtek Business Services Corp. is a Maryland corporation which was formed in August 2013 and is an internally managed, closed-end investment company. The Company's investment strategy is to maximize the investment portfolio's return by generating current income from the debt investments the Company makes and generate dividend income from equity investments in controlled portfolio companies.

The following wholly-owned subsidiaries are consolidated in the financial statements of the Company:

- Newtek Small Business Finance, LLC
- The Whitestone Group, LLC
- Wilshire Alabama Partners, LLC
- Wilshire Colorado Partners, LLC
- Wilshire DC Partners, LLC
- Wilshire Holdings I, Inc.
- Wilshire Holdings II, Inc.
- Wilshire Louisiana Bidco, LLC
- Wilshire Louisiana Partners II, LLC
- Wilshire Louisiana Partners III, LLC
- Wilshire Louisiana Partners IV, LLC
- Wilshire New York Advisers II, LLC
- Wilshire New York Partners III, LLC
- Wilshire New York Partners IV, LLC
- Wilshire New York Partners V, LLC
- Wilshire Partners, LLC
- Wilshire Texas Partners, LLC
- CCC Real Estate Holdings Co., LLC
- The Texas Whitestone Group, LLC
- Newtek Business Services Holdco 1, Inc.

In addition to the wholly owned entities consolidated above, Exponential of New York, LLC is consolidated as the Company is determined to be the primary beneficiary.

The accompanying notes to the unaudited condensed consolidated financial statements should be read in conjunction with Newtek's 2014 Annual Report on Form 10-K. The unaudited condensed consolidated financial statements of the Company have been prepared in accordance with U.S. GAAP and pursuant to the requirements for reporting on Form 10-Q and Article 10 of Regulation S-X and, therefore, omit or condense certain footnotes and other information normally included in financial statements prepared in accordance with U.S. GAAP. In the opinion of management, the condensed consolidated financial statements reflect all adjustments and reclassifications that are necessary for the fair presentation of financial results as of and for the periods presented. The results of operations for an interim period may not give a true indication of the results for the entire year. The December 31, 2014 consolidated balance sheet has been derived from the audited financial statements as of

that date. All intercompany balances and transactions have been eliminated in consolidation. Certain prior period amounts have been reclassified to conform to the current period presentation.

All financial information included in the tables in the following footnotes is stated in thousands, except per share data.

## **NOTE 2—SIGNIFICANT ACCOUNTING POLICIES:**

### ***Fair Value***

The Company applies fair value to certain of its financial instruments in accordance with ASC Topic 820 — Fair Value Measurements and Disclosures (“ASC Topic 820”). ASC Topic 820 defines fair value, establishes a framework used to measure fair value and requires disclosures for fair value measurements. In accordance with ASC Topic 820, the Company has categorized its financial instruments carried at fair value, based on the priority of the valuation technique, into a three-level fair value hierarchy. Fair value is a market-based measure considered from the perspective of the market participant who holds the financial instrument rather than an entity-specific measure. Therefore, when market assumptions are not readily available, the Company’s own assumptions are set to reflect those that management believes market participants would use in pricing the financial instrument at the measurement date.

The availability of observable inputs can vary depending on the financial instrument and is affected by a wide variety of factors, including, for example, the type of product, whether the product is new, whether the product is traded on an active exchange or in the secondary market and the current market conditions. To the extent that the valuation is based on models or inputs that are less observable or unobservable in the market the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised by the Company in determining fair value is greatest for financial instruments classified as Level 3.

Any changes to the valuation methodology are reviewed by management and the Company’s board of directors (the “Board”) to confirm that the changes are appropriate. As markets change, new products develop and the pricing for products becomes more or less transparent, the Company will continue to refine its valuation methodologies. See further description of fair value methodology in Note 6.

### ***Use of Estimates***

The preparation of consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the consolidated financial statements, and the reported amounts of revenue and expense during the reporting period. The level of uncertainty in estimates and assumptions increases with the length of time until the underlying transactions are complete. Actual results could differ from those estimates.

### ***Consolidation***

As provided under Regulation S-X and ASC Topic 946, the Company will generally not consolidate its investment in a company other than an investment company subsidiary or a controlled operating company whose business consists of providing services to the Company.

Assets related to transactions that do not meet ASC Topic 860 — Transfers and Servicing (“ASC Topic 860”) requirements for accounting sale treatment are reflected in the Company’s consolidated statements of assets and liabilities as investments. Those assets are owned by the securitization trusts, and are included in the Company’s consolidated financial statements. The creditors of the special purpose entities have received security interests in such assets and such assets are not intended to be available to the creditors of the Company.

### ***Cash and Cash Equivalents***

The Company considers all highly liquid investments with maturities of three months or less when purchased to be cash equivalents. Invested cash is held almost exclusively at financial institutions of high credit quality. The Company invests cash not held in interest free checking accounts or bank money market accounts mainly in U.S. Treasury only money market instruments or funds and other investment-grade securities. As of June 30, 2015, cash deposits in excess of FDIC deposit insurance and Securities Investor Protection Corporation (“SIPC”) insurance totaled approximately \$8,714,000.

### ***Restricted Cash***

Restricted cash includes cash collateral relating to a letter of credit; monies due on SBA loan-related remittances due to third parties; and cash reserves associated with securitization transactions.

### ***Broker Receivable***

Broker receivable represents amounts due from third parties for investments which have been traded at period end but have not yet settled.

### ***Income Taxes***

The Company will elect to be treated as a regulated investment company ("RIC") beginning with the 2015 tax year under Subchapter M of the Internal Revenue Code of 1986, as amended (the "Code") and will operate in a manner so as to qualify for the tax treatment applicable to RICs. In order to qualify as a RIC, among other things, the Company will be required to meet certain source of income and asset diversification requirements and timely distribute to its stockholders at least 90% of investment company taxable income, as defined by the Code, for each tax year. The Company intends to make the requisite distributions to its stockholders, which will generally relieve the Company from U.S. federal income taxes with respect to all income distributed to its stockholders.

As a result of the Company's conversion to a BDC and its intention to elect RIC status when it files its 2015 tax return, the Company reversed the balance of its deferred tax asset as of December 31, 2014, through additional paid-in capital on January 1, 2015.

Depending on the level of taxable income earned in a tax year, the Company may choose to retain taxable income in excess of current year dividend distributions, and would distribute such taxable income in the next tax year. The Company would then pay a 4% excise tax on such income, as required. To the extent that the Company determines that its estimated current year annual taxable income, determined on a calendar year basis, could exceed estimated current calendar year dividend distributions, the Company accrues excise tax, if any, on estimated excess taxable income as taxable income is earned. For the three and six months ended June 30, 2015, no U.S. federal excise taxes were accrued.

### ***Dividends and Distributions***

Dividends and distributions to the Company's common stockholders are recorded on the record date. The timing and amount to be paid out as a dividend or distribution is determined by the Board each quarter and is generally based upon the earnings estimated by management. Net realized capital gains, if any, are distributed at least annually, although the Company may decide to retain such capital gains for investment.

### ***Investment Income***

Interest on debt investments is accrued and included in income based on contractual rates applied to principal amounts outstanding. Interest income is determined using a method that results in a level rate of return on principal amounts outstanding. When a loan becomes 90 days or more past due, or if we otherwise do not expect to receive interest and principal repayments, the loan is placed on non-accrual status and the recognition of interest income is discontinued. Interest payments received on loans that are on non-accrual status are treated as reductions of principal until the principal is repaid. Dividend income is recorded at the time dividends are declared. Distributions of earnings from portfolio companies are evaluated to determine if the distribution is income or return of capital.

We receive servicing income related to the guaranteed portions of SBA loan investments which we sell into the secondary market. These recurring fees are earned daily and recorded when earned. Servicing income is earned for the full term of the loan or until the loan is repaid.

We receive a variety of fees from borrowers in the ordinary course of conducting our business, including packaging, late payment and prepayment fees. All other income is recorded when earned. Other income is generally non-recurring in nature and earned as "one time" fees in connection with the origination of new debt investments with non-affiliates.

Investment transactions are accounted for on a trade-date basis. Realized gains or losses on investments are measured by the difference between the net proceeds from the disposition and the cost basis of investment, without regard to unrealized gains or

losses previously recognized. The Company reports current period changes in the fair value of investments as a component of the net change in unrealized appreciation (depreciation) on investments in the condensed consolidated statements of operations.

### ***New Accounting Standards***

In May 2015, the Financial Accounting Standards Board ("FASB") issued ASU 2015-07 "Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)." The update changes the requirements for the presentation of certain investments using the net asset value, providing a practical expedient to exclude such investments from categorization within the fair value hierarchy and make a separate disclosure. This ASU is effective for annual reporting periods beginning after December 15, 2015, and interim periods within those annual periods. The Company does not expect this guidance to have a material impact on our condensed consolidated financial statements and disclosures.

In April 2015, the FASB issued ASU 2015-03, "Simplifying the Presentation of Debt Issuance Costs." This update requires that debt issuance costs be presented in the balance sheet as a direct deduction from the debt liability. This ASU is effective for interim and annual reporting periods beginning after December 15, 2015. Early adoption is permitted. The Company is evaluating the impact of this update to its condensed consolidated financial statements and disclosures.

### ***Segments***

As a BDC, the Company has determined that it has a single reporting segment and operating unit structure. The Company lends to and makes investments in portfolio companies in various industries. The Company separately evaluates the performance of each of its lending and investment relationships. However, because each of these loan and investment relationships has similar business and economic characteristics, they have been aggregated into a single lending and investment segment.

### ***Reclassifications***

Certain prior period amounts have been reclassified to conform to the current year presentation.

(1) During the quarter ended June 30, 2015, the Company converted all of its debt investments in CDS Business Services, Inc. to equity.

The table above includes only those controlled investments for which the Company had transactions for the six months ended June 30, 2015.

In addition to the transactions above, the Company incurs expenses from certain controlled portfolio companies. For the three months ended June 30, 2015, the Company incurred \$144,000 in managed technology services, \$62,000 in loan processing and closing expenses, and \$6,000 in payroll processing fees from certain of its controlled portfolio companies. For the six months ended June 30, 2015, the Company incurred \$289,000 in managed technology services, \$186,000 loan processing and closing expenses, and \$11,000 in payroll processing fees from certain of its controlled portfolio companies. For the three and six months ended June 30, 2015, the Company earned \$33,000 in consulting fee income from certain controlled portfolio companies. Amounts due from and due to related parties are \$3,992,000 and \$3,204,000, respectively at June 30, 2015.

The Company allocates portions of salaries for management and certain other employees that perform services for certain controlled portfolio companies. Amounts are allocated based on estimates of time and effort spent by certain employees performing services for certain controlled portfolio companies. Allocations are generally recorded on a quarterly basis and are recurring in nature. Amounts allocated for the three and six months ended June 30, 2015 were \$475,000 and \$940,000, respectively. No amounts were allocated for the three and six months ended June 30, 2014 as the controlled portfolio companies were consolidated subsidiaries.

#### NOTE 5—SERVICING ASSETS:

For the three months ended June 30, 2015 and 2014, servicing fees received on the Company's SBA non-affiliate investments totaled \$1,068,000 and \$915,000, respectively. For the six months ended June 30, 2015 and 2014, servicing fees received on the Company's SBA non-affiliate investments totaled \$2,111,000 and \$1,746,000, respectively. The total servicing fee income recognized for loans serviced for others for the three and six months ended June 30, 2014 was \$1,743,000 and \$3,537,000. As a result of the BDC Conversion, no servicing fee income was recognized for loans serviced for others for the three and six months ended June 30, 2015. This revenue, which was previously included in consolidated results prior to the BDC Conversion, is recognized and earned by one of the Company's controlled portfolio companies, Small Business Lending, Inc.

The estimated fair values of capitalized servicing assets were \$11,275,000 and \$9,483,000 at June 30, 2015 and December 31, 2014, respectively. Inherent risks related to the fair value of servicing assets include prepayment and default risks. An increase in either of these factors could have a negative impact on the fair value of servicing assets on the condensed consolidated statement of assets and liabilities. Additionally, a decrease in servicing spread would also have a negative impact on the fair value of servicing assets.

The estimated fair value of servicing assets at June 30, 2015 was determined using a discount factor that is a blended approach of the weighted average cost of capital and the weighted average servicing spread of 11.57%, prepayment speed of 19%, and an average cumulative default rate of 25%. The estimated fair value of servicing assets at December 31, 2014 was determined using a discount factor that is a blended approach of the weighted average cost of capital and the weighted average servicing spread of 11.58%, prepayment speed of 19%, and an average cumulative default rate of 25%. Changes in the fair value of

servicing assets are included on the condensed consolidated statements of operations under the caption "net unrealized depreciation on servicing assets."

**NOTE 6—FAIR VALUE MEASUREMENTS:**

In accordance with GAAP, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e., the "exit price") in an orderly transaction between market participants at the measurement date. In determining fair value, Management uses various valuation approaches, all of which have been approved by the Company's Board. In accordance with GAAP, a fair value hierarchy for inputs is used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available.

The fair value hierarchy gives the highest priority (Level 1) to quoted prices in active markets for identical assets or liabilities and gives the lowest priority to unobservable inputs (Level 3). An asset or liability's classification within the fair value hierarchy is based on the lowest level of significant input to its valuation. The levels of the fair value hierarchy are as follows:

- Level 1** Quoted prices in active markets for identical assets or liabilities. Level 1 assets and liabilities include debt and equity securities and derivative contracts that are traded in an active exchange market, as well as certain U.S. Treasury, other U.S. Government and agency mortgage-backed debt securities that are highly liquid and are actively traded in over-the-counter markets.
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities. Level 2 assets and liabilities include debt securities with quoted prices that are traded less frequently than exchange-traded instruments and derivative contracts whose value is determined using a pricing model with inputs that are observable in the market or can be derived principally from or corroborated by observable market data. This category generally includes certain U.S. Government and agency mortgage-backed debt securities, corporate debt securities, derivative contracts and residential mortgage loans held-for-sale.
- Level 3** Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. Level 3 assets and liabilities include financial instruments whose value is determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation. This category generally includes certain private equity investments, retained residual interests in securitizations, residential mortgage servicing rights, and highly structured or long-term derivative contracts.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, an asset's or a liability's categorization within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the asset or liability. The Company assesses the levels of assets and liabilities at each measurement date, and transfers between levels are recognized on the actual date of the event or change in circumstances that caused the transfers. There were no transfers among Level 1, 2 and 3 of the fair value hierarchy for assets and liabilities during the three and six months ended June 30, 2015 and 2014. The following section describes the valuation techniques used by the Company to measure different assets and liabilities at fair value and includes the level within the fair value hierarchy in which the assets and liabilities are categorized.

Level 1 investments are valued using quoted market prices. Level 2 investments are valued using market consensus prices that are corroborated by observable market data and quoted market prices for similar assets and liabilities. Level 3 investments are valued at fair value as determined in good faith by the Board, based on input of management, the audit committee and independent valuation firms that have been engaged at the direction of the Board to assist in the valuation of certain portfolio investments without a readily available market quotation at least once during a trailing twelve-month period under a valuation policy and a consistently applied valuation process.

When determining fair value of Level 3 debt and equity investments, the Company may take into account the following factors, where relevant: the enterprise value of a portfolio company, the nature and realizable value of any collateral, the portfolio company's ability to make payments, its earnings and discounted cash flows, the markets in which the portfolio company does business, comparisons to publicly traded securities, changes in the interest rate environment and the credit markets generally that may affect the price at which similar investments may be made and other relevant factors. The primary method for

determining enterprise value uses a multiple analysis whereby appropriate multiples are applied to the portfolio company’s net income before net interest expense, income tax expense, depreciation and amortization (“EBITDA”) or revenue. The enterprise value analysis is performed to determine the value of equity investments and to determine if debt investments are credit impaired. If debt investments are credit impaired, the Company will use the enterprise value analysis or a liquidation basis analysis to determine fair value. For debt investments that are not determined to be credit impaired, the Company uses a market interest rate yield analysis to determine fair value.

In addition, for certain debt investments, the Company may base its valuation on quotes provided by an independent third party broker.

Due to the inherent uncertainty of determining the fair value of Level 3 investments that do not have a readily available market value, the fair value of the investments may differ significantly from the values that would have been used had a ready market existed for such investments and may differ materially from the values that may ultimately be received or settled. Further, such investments are generally subject to legal and other restrictions or otherwise are less liquid than publicly traded instruments. If the Company were required to liquidate a portfolio investment in a forced or liquidation sale, the Company may realize significantly less than the value at which such investment had previously been recorded.

The Company’s investments are subject to market risk. Market risk is the potential for changes in the value due to market changes. Market risk is directly impacted by the volatility and liquidity in the markets in which the investments are traded.

The following tables present fair value measurements of the Company’s assets and liabilities measured at fair value and indicates the fair value hierarchy of the valuation techniques utilized by the Company to determine such fair value as of June 30, 2015 and December 31, 2014:

Prior to the Company's conversion to a BDC, the Company did not account for its controlled investments and servicing assets at fair value.

The following tables provide a summary of quantitative information about the Company's Level 3 fair value measurements as of June 30, 2015 and December 31, 2014. In addition to the techniques and inputs noted in the table below, according to our valuation policy we may also use other valuation techniques and methodologies when determining our fair value measurements. The table below is not intended to be all-inclusive, but rather provides information on the significant Level 3 inputs as they relate to the Company's fair value measurements at June 30, 2015 and December 31, 2014.

	Fair Value as of June 30, 2015	Valuation Techniques	Unobservable Input	Weighted Average	Range

(A) In determining the fair value of the Company's controlled investments as of December 31, 2014, the proportion of the market comparable companies valuation technique and the discounted cash flow valuation technique were 48.1% and 51.9%, respectively, on a weighted average basis.

**NOTE 7—NOTES PAYABLE AND NOTES PAYABLE - RELATED PARTIES:**

At June 30, 2015 and December 31, 2014, the Company had notes payable comprised of the following :

	June 30, 2015	December 31, 2014
Notes payable:		
Capital One lines of credit (NSBF)		
Guaranteed line	\$ 23,552	\$ 28,722

Note payable – related parties	19,119	—
Note payable – Securitization trust VIE	72,312	79,520
Total notes payable	\$ 117,753	\$ 122,543

In June 2015, the Company received \$19,119,000 under an unsecured revolving line of credit extended by UPS and NTS. Maximum borrowings under the line of credit are \$38,000,000. The outstanding balance shall bear interest at a rate equal to (a) the greater of LIBOR or 50 basis points plus (b) 7% or at a rate equal to (y) the greater of the Prime Rate or 350 basis points, plus (z) 6%. The interest rate in effect is equal to the interest rate on the term loan between UPS, NTS, and Goldman Sachs Bank USA as discussed in Note 8. At June 30, 2015, the interest rate on the \$19,119,000 is 7.5%. The revolving line of credit has a maturity date of June 21, 2019. Interest expense for the three and six months ended June 30, 2015 was approximately \$30,000 which is included in total interest expenses in the condensed consolidated statements of operations. No interest expense was incurred in 2014.

In June 2015, the Company paid off and retired the Capital One term loan and revolving line of credit. The proceeds used to pay down the Capital One term loan and accrued interest of \$8,879,000 as of June 23, 2015 were received from two controlled portfolio companies (see above). There was no amount due on the revolving line or credit with Capital One.

Total interest expense for the three months ended June 30, 2015 and 2014 was \$1,728,000 and \$3,589,000, respectively. Total interest expense for the six months ended June 30, 2015 and 2014 was \$3,084,000 and \$5,225,000, respectively.

#### NOTE 8—COMMITMENTS AND CONTINGENCIES:

##### *Legal Matters*

In the ordinary course of business, the Company may from time to time be party to lawsuits and claims. The Company evaluates such matters on a case by case basis and its policy is to contest vigorously any claims it believes are without compelling merit. The Company is currently involved in various litigation matters.

On January 21, 2014, NCMIC Finance Corporation (“NCMIC”) filed a complaint against Universal Processing Services of Wisconsin, LLC (“UPS”), the Company’s merchant processing portfolio company, in the United States District Court for the Southern District of Iowa. The complaint asserts claims against UPS for breach of the UPS and NCMIC agreement for the processing of credit card transactions, and seeks monetary relief. The Company believes that the claims asserted in the complaint are wholly without merit and intends to vigorously defend the action.

As previously disclosed, during the quarter ended June 30, 2013, the Federal Trade Commission (the “FTC”) amended an existing complaint in the matter Federal Trade Commission v. WV Universal Management, LLC et al., pending in the United States District Court for the Middle District of Florida (the “Court”), to add UPS as an additional defendant on one count of providing substantial assistance in violation of the Telemarketing Sales Rule. On November 18, 2014, the Court issued an Order granting the FTC’s motion for summary judgment against UPS on the single count. Subsequently, the FTC filed motions for a permanent injunction and equitable monetary relief against UPS and the other remaining defendants. Prior to the Court hearing on the motions, UPS and the FTC reached a settlement on the FTC’s motion for a permanent injunction, subject to final approval of the FTC. On February 11, 2015, the Court granted the FTC’s motion for equitable relief against UPS and the other remaining defendants, ordering that the remaining defendants pay \$1,735,000 in equitable monetary relief. UPS has recorded a reserve for the full amount of the potential loss as of June 30, 2015. On May 19, 2015, the Court entered an equitable monetary judgment against NMS for approximately \$1,735,000.

Management has reviewed all other legal claims against the Company with counsel and has taken into consideration the views of such counsel, as to the outcome of the claims. In management's opinion, final disposition of all such claims will not have a material adverse effect on the results of operations, cash flows or financial position of the Company.

Management has determined that, in the aggregate, all pending legal actions should not have a material adverse effect on our consolidated results of operations, cash flows or financial condition. In addition, we believe that any amount that could be reasonably estimated of potential loss or range of potential loss is not material.

### ***Guarantees***

The Company is a guarantor on a bank line of credit at NBC, a controlled portfolio company. Maximum borrowings under the line of credit are \$10,000,000 with a maturity date of February 2016. At June 30, 2015, total principal and accrued interest owed by NBC was \$3,796,000. In addition, the Company deposited \$750,000 to collateralize the guarantee. At June 30, 2015, the Company determined that it is not probable that payments would be required to be made under the guarantee.

On June 23, 2015, UPS and NTS (together, the "Borrowers"), each a controlled portfolio company of the Company, entered into a Credit and Guaranty Agreement (the "Agreement"), dated June 23, 2015, with Goldman Sachs Bank USA ("GS Bank"), as Administrative Agent, Collateral Agent and Lead Arranger, pursuant to which GS Bank agreed to extend the Borrowers a term loan facility up to an aggregate principal amount of \$38,000,000 (the "Facility" and each term loan made thereunder, a "Term Loan"). The Company, Newtek Business Services Holdco 1, Inc., a wholly-owned subsidiary of the Company ("Intermediate Holdings"), and certain subsidiaries of Intermediate Holdings party to the Agreement from time to time, including UPS, NTS, and Solar Processing Solutions, LLC, have agreed to guarantee the repayment of the Facility and are parties to the Agreement as "Guarantors" thereunder. At June 30, 2015, the Company determined that it is not probable that payments would be required to be made under the guarantee.

The Company's dividends and distributions are recorded on the record date. The following table summarizes the Company's dividend declarations and distributions during the six months ended June 30, 2015. There were no dividend declarations or distributions for the six months ended June 30, 2014.

Date Declared	Record Date	Payment Date	Amount Per Share	Total Amount
March 19, 2015	March 30, 2015	April 13, 2015	\$ 0.39	\$ 3,985
June 15, 2015	June 29, 2015	July 15, 2015	\$ 0.47	\$ 4,802

On July 15, 2015, in connection with the June 15, 2015 dividend declaration, 4,655 shares valued at \$87,000 were issued as part of the Company's Dividend Reinvestment Plan ("DRIP").

**NOTE 12—STOCK OPTIONS AND RESTRICTED STOCK:**

The Company had one and three share-based compensation plans as of June 30, 2015 and 2014, respectively. For the six months ended June 30, 2014, share-based compensation expense was \$532,000 of which \$445,000 is included in salaries and benefits, and \$87,000 is included in other general and administrative costs. During the six months ended June 30, 2014, approximately 14,300 shares awarded under the plans were forfeited due to early termination or resignation by certain employees. The total forfeiture credit recognized for the six months ended June 30, 2014 was approximately \$69,000 and is included in share-based compensation expense. There were no share-based awards outstanding as of June 30, 2015 therefore no share-based compensation expense was recorded for the three and six months ended June 30, 2015.

**NOTE 13—SEGMENT REPORTING:**

Operating segments are organized internally primarily by the type of services provided. Prior to converting to a BDC, the Company aggregated similar operating segments into six reportable segments: Electronic payment processing, Managed technology solutions, Small business finance, All other, Corporate and Capcos.

The Electronic payment processing segment is a processor of credit card transactions, as well as a marketer of credit card and check approval services to the small and medium-sized business market. Expenses include direct costs (included in a separate line captioned electronic payment processing costs), professional fees, salaries and benefits, and other general and administrative costs, all of which are included in the respective caption on the consolidated statements of operations.

The Small business finance segment consists of Small Business Lending, Inc., a lender service provider for third-parties that primarily services government guaranteed SBA loans and non-SBA loans; Texas Whitestone Group which manages the Company's Texas Capco; Newtek Small Business Finance, LLC, a nationally licensed SBA lender that originates, sells and services loans to qualifying small businesses; and Newtek Business Credit which provides accounts receivable financing, billing and accounts receivable maintenance services to businesses. NSBF generates revenues from sales of loans, servicing

income for those loans retained and interest income earned on the loans themselves. The lender generates expenses for interest, professional fees, salaries and benefits, depreciation and amortization, and provision for loan losses, all of which are included in the respective caption on the consolidated statements of operations. NSBF also has expenses such as loan recovery expenses, loan processing costs, and other expenses that are all included in the other general and administrative costs caption on the consolidated statements of operations.

The Managed technology solutions segment consists of NTS which was acquired in July 2004. NTS's revenues are derived primarily from web hosting services and consist of web hosting and set up fees. NTS generates expenses such as professional fees, payroll and benefits, and depreciation and amortization, which are included in the respective caption on the accompanying consolidated statements of operations, as well as licenses and fees, rent, and general office expenses, all of which are included in other general and administrative costs in the respective caption on the consolidated statements of operations.

The All other segment includes revenues and expenses primarily from qualified businesses that received investments made through the Company's Capcos which cannot be aggregated with other operating segments. The three largest entities in the segment are Newtek Insurance Agency, LLC, an insurance sales operation, PMTWorks Payroll, LLC, a provider of payroll processing services and Business Connect, LLC, a provider of sales and processing services.

Corporate activities represent revenue and expenses not allocated to our segments. Revenue includes interest income and management fees earned from Capcos (and included in expenses in the Capco segment). Expenses primarily include corporate operations related to broad-based sales and marketing, legal, finance, information technology, corporate development and additional costs associated with administering the Capcos.

The Capco segment, which consists of the twelve Capcos, generates non-cash income from tax credits, interest income and gains from investments in qualified businesses which are included in other income. Expenses primarily include non-cash interest and insurance expense, management fees paid to Newtek (and included in Corporate activities revenues), legal, and audit fees and losses from investments in qualified businesses.

Management had considered the following characteristics when making its determination of its operating and reportable segments:

- the nature of the product and services;
- the type or class of customer for their products and services;
- the methods used to distribute their products or provide their services; and
- the nature of the regulatory environment (for example, banking, insurance, or public utilities).

The accounting policies of the segments are the same as those described in the summary of significant accounting policies.

The Company no longer has six reportable segments after November 11, 2014 as a result of the Conversion. The segment information presented below represents results for the three and six months ended June 30, 2014. For the three and six months ended June 30, 2015, there is only one reportable segment.

The following table presents the Company's segment information for the three and six months ended June 30, 2014, (in thousands):

**NOTE 14—SUPPLEMENTAL FINANCIAL DATA:**
**Summarized Financial Information of Our Unconsolidated Subsidiaries**

The Company holds a controlling interest, as defined by the 1940 Act, as amended, in portfolio companies that are not consolidated in the Company's condensed consolidated financial statements. Below is a brief description of a portfolio

company that is required to have supplemental disclosure incorporated in our financial statements in accordance with Regulation S-X section 4-08(g), along with summarized financial information as of June 30, 2015.

### Universal Processing Services of Wisconsin, LLC

Universal Processing Services of Wisconsin, LLC ("UPS") markets credit and debit card processing services, check approval services and ancillary processing equipment and software to merchants who accept credit cards, debit cards, checks and other non-cash forms of payment. The Company generated \$1,500,000 and \$2,300,000 in dividend income from UPS and recorded \$2,139,000 and \$4,739,000 in unrealized appreciation on investment for the three and six months ended June 30, 2015, respectively.

The summarized financial information of our unconsolidated subsidiary was as follows:

<b>Balance Sheets - Universal Processing Services of Wisconsin, LLC</b>	<b>As of June 30, 2015</b>	<b>As of December 31, 2014</b>

### NOTE 15—SUBSEQUENT EVENTS:

On July 23, 2015, the Company acquired Premier Payments LLC ("Premier"), as a new wholly owned, controlled portfolio company. Premier was owned 100% by a related party of the Company. The total purchase price was approximately \$16,483,000, of which \$14,011,000 was paid in cash and \$2,472,000 was paid in newly issued restricted shares of Newtek common stock. A total of 130,959 shares were issued which may not be sold or transferred for six months. Premier is one of the Country's leading merchant services providers, which processes billions of dollars of credit card and debit card transactions on an annual basis. It is anticipated that this acquisition will expand the Company's presence in the merchant processing space. The Company's board of directors, including a majority of independent directors, approved the transaction.

## ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

### Overview

We are an internally-managed, closed-end, investment company that has elected to be regulated as a business development company under the the 1940 Act. In addition, for U.S. federal income tax purposes, we have elected to be treated as a RIC under Subchapter M of the Internal Revenue Code of 1986 as amended (the "Code"). As a business development company ("BDC") and a regulated invested company ("RIC"), we are also subject to certain constraints, including limitations imposed by the 1940 Act and the Code. We converted to a BDC in November 2014. As a result, previously consolidated subsidiaries are now recorded as investments in controlled portfolio companies, at fair value. Newtek Small Business Finance, LLC is a consolidated subsidiary and originates loans under the SBA's 7(a) program.

Our shares are currently listed on The NASDAQ Capital Market under the symbol "NEWT".

We target our debt investments, which are principally made through our small business finance platform under the SBA 7(a) program, to produce a coupon rate of prime plus 2.75% which enables us to generate rapid sales of loans in the secondary market, producing gains with a yield on investment in excess of 30%. We typically structure our debt investments with the maximum seniority and collateral along with personal guarantees from portfolio company owners, in many cases collateralized by other assets including real estate. In most cases, our debt investment will be collateralized by a first lien on the assets of the portfolio company and a first or second lien on assets of guarantors, in both cases primarily real estate. All SBA loans are made with personal guarantees from any owner(s) of 20% or more of the portfolio company's equity.

We typically structure our debt investments to include non-financial covenants that seek to minimize our risk of capital loss such as lien protection and prohibitions against change of control. Our debt investments have strong protections, including default penalties, information rights and, in some cases, board observation rights and affirmative, negative and financial covenants. Debt investments in portfolio companies, including the controlled portfolio companies, have historically and are expected to continue to comprise in excess of 95% of our overall investments in number and dollar volume.

While the vast majority of our investments have been structured as debt, we have in the past and expect in the future to make selective equity investments primarily as either strategic investments to enhance the integrated operating businesses or, to a lesser degree, under the Capco programs. For investments in our controlled portfolio companies, we focus more on tailoring them to the long term growth needs of the companies than to immediate return. Our objectives with these companies is to foster the development of the businesses as a part of the integrated operational business of serving the SMB market, so we may reduce the burden on these companies to enable them to grow faster than they would otherwise as another means of supporting their development and that of the integrated whole.

In Capco investments, we often make debt investments in conjunction with being granted equity in the company in the same class of security as the business owner receives upon funding. We generally seek to structure our equity investments to provide us with minority rights provisions and event-driven put rights. We also seek to obtain limited registration rights in connection with these investments, which may include "piggyback" registration rights.

In May 2015, Exponential of New York, LLC ("Exponential") received notice from the state of New York that the Company's request to be decertified as a Capco had been granted. The State of New York acknowledged that the Company had met the required level of qualified investments and satisfied all investment obligations.

In June 2015, Wilshire Texas Partners, LLC ("Wilshire Texas") received notice from the state of Texas that the Company's request to be decertified as a Capco had been granted. The State of Texas acknowledged that the Company had met the required level of qualified investments and satisfied all investment obligations.

On June 23, 2015, Universal Processing Services of Wisconsin, LLC and CrystalTech Web Hosting, Inc. (the "Borrowers") entered into a four year credit agreement with Goldman Sachs Bank USA ("Goldman Sachs") where Goldman Sachs agreed to extend a term loan facility up to an aggregate principal amount of \$38,000,000. A portion of the proceeds of \$19,119,000 was disbursed to the Company under a revolving line of credit. The Company used a portion of the proceeds from the line to repay the outstanding balance of the Company's term loan and accrued interest with Capital One in the amount of \$8,879,000. The remainder of the proceeds are to be used to finance future growth and for general corporate purposes. The term loan provides

for monthly payments of interest with a balloon payment at the end of the term. Each term loan shall either be a "Base Rate Loan" or "LIBOR Rate Loan" at the Borrowers' election. Each LIBOR Rate Loan shall bear interest on the outstanding balance at a rate equal to (a) the greater of LIBOR or 50 basis points plus (b) 7% and each Base Rate Loan shall bear interest on the outstanding balance at a rate equal to (y) the greater of the Prime Rate or 350 basis points, plus (z) 6%. The credit agreement has a maturity date of June 21, 2019. As of June 30, 2015, outstanding principal is \$20,000,000.

### Revenues

We generate revenue in the form of interest, dividend, servicing and other fee income on debt and equity investments. Our debt investments typically have a term of 10 to 25 years and bear interest at prime plus a margin. In some instances, we receive payments on our debt investments based on scheduled amortization of the outstanding balances. In addition, we receive repayments of some of our debt investments prior to their scheduled maturity date. The frequency or volume of these repayments fluctuates significantly from period to period. Our portfolio activity also reflects the proceeds of sales of securities. We receive servicing income related to the guaranteed portions of SBA guaranteed investments which we sell into the secondary market. These recurring fees are earned monthly and recorded when earned. In addition, we may generate revenue in the form of packaging, prepayment and late fees. We record prepayment fees on loans as other income. Dividends are recorded as dividend income on an accrual basis to the extent that such amounts are payable by the portfolio company and are expected to be collected. Dividends on common equity securities are recorded as dividend income on the record date for private portfolio companies.

We recognize realized gains or losses on investments based on the difference between the net proceeds from the disposition and the cost basis of the investment without regard to unrealized gains or losses previously recognized. We record current period changes in fair value of investments and assets that are measured at fair value as a component of the net change in unrealized appreciation (depreciation) on investments in the condensed consolidated statements of operations.

### Expenses

Our primary operating expenses are salaries and benefits, interest expense and other general and administrative fees, such as professional fees, marketing, loan related costs and rent. Since we are an internally-managed BDC with no outside adviser or management company, the BDC incurs all the related costs to operate the Company.

#### **Comparison for the three months ended June 30, 2015 and 2014**

##### ***Investment Income***

Investment income for the three months ended June 30, 2015 was \$5,606,000 compared with total operating revenues of \$38,128,000 for the three months ended June 30, 2014. As a result of the BDC Conversion, there is no electronic payment processing revenue, web hosting and design revenue, servicing fee income from external portfolios, insurance commission revenue, and other income related to our payroll processing and accounts receivable financing and billing services included in the results for the three months ended June 30, 2015.

Substantially all interest income for the three months ended June 30, 2015 and 2014 was derived from SBA non-affiliate investments/loans. Interest income derived from SBA non-affiliate investments/loans was \$2,224,000 and \$1,565,000 for the three months ended June 30, 2015 and 2014, respectively. The increase is attributed to the average outstanding performing portfolio of SBA non-affiliate investments/loans increasing to \$132,577,000 from \$100,204,000 for the three months ended June 30, 2015 and 2014, respectively. The increase in the average outstanding performing portfolio resulted from the origination of new SBA non-affiliate investments period over period.

Servicing fee income from NSBF originated portfolio investments increased \$153,000 for the three months ended June 30, 2015 compared to 2014. The increase was attributed to the increase in total portfolio investments for which we earn servicing income. The portfolio increased \$144,195,000 period over period. The increase was a direct result of increased investments in SBA non-affiliate investments from 2014 to 2015. No servicing fee income was recognized for loans serviced for third parties for the three months ended June 30, 2015. This revenue, which was previously included in consolidated results, is recognized and earned by one of the Company's controlled portfolio companies.

Total NSBF originated servicing portfolio	\$ 694,163	\$ 549,968	\$ 144,195	26%
Total servicing income earned	\$ 1,068	\$ 915	\$ 153	17%

Dividend income was \$1,787,000 for the three months ended June 30, 2015 and represents \$1,500,000, \$200,000, and \$74,000 in dividends from controlled portfolio companies, Universal Processing Services of Wisconsin, LLC, CrystalTech Web Hosting, Inc., and Small Business Lending, Inc., respectively.

### Adjusted Net Investment Income

We utilize adjusted net investment income as one way to measure our current and future financial performance. Adjusted net investment income is a non-GAAP financial measure and is not intended as an alternative measure of investment income as determined in accordance with GAAP. In addition, our calculation of adjusted net investment income is not necessarily comparable to similar measures as calculated by other companies that do not use the same definition or implementation guidelines. The table below reconciles investment loss to adjusted net investment income.

	Three months ended June 30, 2015
Net investment loss	\$ (2,295)
Net realized gain on investments	7,340
Adjusted net investment income	\$ 5,045

For the three months ended June 30, 2014, the Company did not operate as a business development company and therefore did not have net investment or adjusted net investment income. We believe this is a useful measure as it depicts the current income generated from our investment activities during the period. We include net realized gains on investments as they are recurring income related to the sale of SBA guaranteed non-affiliate investments in the secondary market.

### Expenses

Total expenses decreased from \$35,956,000 to \$7,901,000 for the three months ended June 30, 2014 to 2015 as a result of the conversion to a business development company. Electronic payment processing costs, salaries and benefits, depreciation and amortization, and other general and administrative expenses related to certain subsidiaries in 2014 are not included in 2015 results. As previously discussed, certain consolidated subsidiaries in 2014 are now reflected as investments in controlled portfolio companies and their results of operations are not included in 2015.

Interest expense decreased by \$1,861,000 for the three months ended June 30, 2015 compared to 2014. The following table highlights the components of interest expense for each period:

	Three months ended		Variance
	June 30, 2015	June 30, 2014	
Securitization Trust VIE (NSBF)	\$ 943	\$ 767	\$ 176
Summit Partners Credit Advisors, L.P. (NBS)	—	2,431	(2,431)
Capital One Lines of Credit (NSBF)	324	241	83

Capco	15	23	(8)
Other	44	23	21
Total	\$ 1,728	\$ 3,589	\$ (1,861)

Interest expense related to securitizations increased as a result of an additional securitization transaction completed in December 2014. In June 2014, the Company entered into a four year \$20,000,000 credit agreement with Capital One, N.A. ("Capital One") consisting of a \$10,000,000 term loan and a revolving line of credit of up to \$10,000,000. The term loan

proceeds were used to pay off the Summit Partners debt which carried a higher interest rate resulting in a net reduction in interest expense of \$2,035,000. The Capital One term loan and line of credit were paid in full and extinguished in June 2015. For the three months ended June 30, 2015, the Company did not incur interest expense related to the Sterling line of credit as it relates to Newtek Business Credit, a non-consolidated controlled portfolio company. Prior to the BDC Conversion Newtek Business Credit was a consolidated subsidiary.

**Net Realized Gains and Net Unrealized Appreciation and Depreciation**

Realized gains or losses on investments are measured by the difference between the net proceeds from the repayment or sale and the cost basis of our investments without regard to unrealized appreciation or depreciation previously recognized and includes investments charged off during the period, net of recoveries. The net change in unrealized appreciation or depreciation on investments primarily reflects the change in portfolio investment fair values during the reporting period, including the reversal of previously recorded unrealized appreciation or depreciation when gains or losses are realized.

Net realized gains/premium income recognized	—	\$ 7,340	—	\$ 4,992
Average sale price as a percent of principal balance (1)		112.46%		112.57%

(1) Realized gains/premiums greater than 110.00% must be split 50/50 with the SBA in accordance with SBA regulations. The realized gains/premium income recognized above reflects amounts net of split with SBA.

Net realized gains for the three months ended June 30, 2015 were \$7,340,000 compared to no realized gains for the three months ended June 30, 2014. Net realized gains in 2015 are comparable to premium income in 2014. Premium income of \$4,992,000 in 2014 relates to premium income earned from the sale of SBA loans. As a result of the BDC Conversion, the income related to these sales are recorded as realized gains in 2015. The increase is attributed to the increase in investments/ loans sold. The increase was offset by a nominal decrease in average sale premium from 112.57% in 2014 compared to 112.46% in 2015.

Unrealized appreciation on SBA guaranteed non-affiliate investments for the three months ended June 30, 2015 was \$2,365,000. This appreciation relates to guaranteed portions of SBA debt investments made for which the Company sells into a secondary market. Unrealized depreciation of SBA guaranteed investments was \$3,829,000 which represents the reversal of the unrealized appreciation of SBA guaranteed non-affiliate investments sold during the quarter. Net unrealized depreciation on SBA unguaranteed non-affiliate investments resulted from fair value adjustments on new investments.

Net unrealized appreciation on controlled investments was \$2,019,000 for the three months ended June 30, 2015. This consisted primarily of \$2,139,000 and \$250,000 of unrealized appreciation on the Company's investments in Universal Processing Services of Wisconsin, LLC ("UPS") and Small Business Lending, Inc. ("SBL"), respectively. Unrealized appreciation was offset by unrealized depreciation of \$370,000 on the Company's investment in CrystalTech Web Hosting, Inc. ("NTS"). The primary driver of the increase in UPS and SBL was better than projected financial performance and the addition of a new third-party servicing contract which was approved by the SBA and provides a longer-term stable revenue stream. The primary driver of the decrease in NTS was weaker than projected financial performance.

The unrealized loss on servicing assets was \$256,000 for the three months ended June 30, 2015. In 2014, servicing assets were recorded using the amortization method. As a result of the BDC Conversion, servicing assets are recorded at fair value at June 30, 2015. Amortization expense related to servicing assets was \$396,000 for the three months ended June 30, 2014 and is included in depreciation and amortization expense in the condensed unaudited consolidated statements of operations.

**Comparison for the six months ended June 30, 2015 and 2014**

**Investment Income**

Investment income for the six months ended June 30, 2015 was \$10,356,000 compared with total operating revenues of \$74,215,000 for the six months ended June 30, 2014. As a result of the BDC Conversion, there is no electronic payment processing revenue, web hosting and design revenue, servicing fee income from external portfolios, insurance commission revenue, and other income related to our payroll processing and accounts receivable financing and billing services included in the results for the six months ended June 30, 2015.

Substantially all interest income for the six months ended June 30, 2015 and 2014 was derived from SBA non-affiliate investments/loans. Interest income derived from SBA non-affiliate investments/loans was \$4,349,000 and \$3,122,000 for the six months ended June 30, 2015 and 2014, respectively. The increase is attributed to the average outstanding performing portfolio of SBA non-affiliate investments/loans increasing to \$128,786,000 from \$97,222,000 for the six months ended June 30, 2015 and 2014, respectively. The increase in the average outstanding performing portfolio resulted from the origination of new SBA non-affiliate investments period over period.

Servicing fee income from NSBF originated portfolio investments increased \$365,000 for the six months ended June 30, 2015 compared to 2014. The increase was attributed to the increase in total portfolio investments for which we earn servicing income. The portfolio increased \$144,195,000 period over period. The increase was a direct result of increased investments in SBA non-affiliate investments from 2014 to 2015. No servicing fee income was recognized for loans serviced for third parties for the six months ended June 30, 2015. This revenue, which was previously included in consolidated results, is recognized and earned by one of the Company's controlled portfolio companies.

Dividend income was \$2,874,000 for the six months ended June 30, 2015 and represents \$2,300,000, \$400,000, and \$148,000 in dividends from controlled portfolio companies, Universal Processing Services of Wisconsin, LLC, CrystalTech Web Hosting, Inc., and Small Business Lending, Inc., respectively.

#### **Adjusted Net Investment Income**

We utilize adjusted net investment income as one way to measure our current and future financial performance. Adjusted net investment income is a non-GAAP financial measure and is not intended as an alternative measure of investment income as determined in accordance with GAAP. 	Six months ended June 30, 2015
Net investment loss	\$ (4,771)
Net realized gain on investments	15,039
Adjusted net investment income	\$ 10,268

For the six months ended June 30, 2014, the Company did not operate as a BDC and therefore did not have net investment or adjusted net investment income. We believe this is a useful measure as it depicts the current income generated from our investment activities during the period. We include net realized gains on investments as they are recurring income related to the sale of SBA guaranteed non-affiliate investments in the secondary market.

#### **Expenses**

Total expenses decreased from \$68,563,000 to \$15,127,000 for the six months ended June 30, 2014 to 2015 as a result of the conversion to a BDC. Electronic payment processing costs, salaries and benefits, depreciation and amortization, and other general and administrative expenses related to certain subsidiaries in 2014 are not included in 2015 results. As previously discussed, certain consolidated subsidiaries in 2014 are now reflected as investments in controlled portfolio companies and their results of operations are not included in 2015.

Interest expense decreased by \$2,141,000 for the six months ended June 30, 2015 compared to 2014. The following table highlights the components of interest expense for each period:

	Six months ended		Variance

Net realized gains for the six months ended June 30, 2015 were \$15,039,000 compared to no realized gains for the six months ended June 30, 2014. Net realized gains in 2015 are comparable to premium income in 2014. Premium income of \$10,129,000 in 2014 relates to premium income earned from the sale of SBA loans. As a result of the BDC Conversion, the income related to these sales are recorded as realized gains in 2015. The increase is attributed to the increase in investments/loans sold from 86 in 2014 to 143 in 2015. The increase is also attributed to the increase in average sale premium from 112.40% in 2014 to 112.45% in 2015.

Unrealized appreciation on SBA guaranteed non-affiliate investments for the six months ended June 30, 2015 was \$4,096,000. This appreciation relates to guaranteed portions of SBA investments made for which the Company sells into a secondary market. Unrealized depreciation of SBA guaranteed investments was \$7,258,000 which represents the reversal of the unrealized appreciation of SBA guaranteed non-affiliate investments sold during the quarter. Net unrealized depreciation on SBA unguaranteed non-affiliate investments resulted from fair value adjustments on new investments.

Net unrealized appreciation on controlled investments was \$9,519,000 for the six months ended June 30, 2015. This consisted primarily of \$5,350,000 of unrealized appreciation on the Company's investment in Small Business Lending, Inc. ("SBL") and \$4,739,000 of unrealized appreciation on the Company's investment in Universal Processing Services of Wisconsin, LLC ("UPS") offset by unrealized depreciation of approximately \$370,000 on the Company's investment in CrystalTech Web Hosting, Inc.. The primary driver for the increase in SBL was the addition of a new third-party servicing contract which was approved by the SBA and provides a longer-term stable revenue stream. The primary driver of the increase in UPS was better than projected financial performance.

The unrealized loss on servicing assets was \$612,000 for the six months ended June 30, 2015. In 2014, servicing assets were recorded using the amortization method. As a result of the BDC Conversion, servicing assets are recorded at fair value at June 30, 2015. Amortization expense related to servicing assets was \$744,000 for the six months ended June 30, 2014 and is included in depreciation and amortization expense in the condensed unaudited consolidated statements of operations.

## **Liquidity and Capital Resources**

### **Overview**

Cash requirements and liquidity needs over the next twelve months are anticipated to be funded primarily through operating results, available cash and cash equivalents, existing credit lines, proposed new credit lines, additional securitizations of the Company's SBA lender's unguaranteed loan portions and additional issuances of common stock.

On June 23, 2015, Universal Processing Services of Wisconsin, LLC and CrystalTech Web Hosting, Inc. (the "Borrowers") entered into a four year credit agreement with Goldman Sachs Bank USA ("Goldman Sachs") where Goldman Sachs agreed to extend a term loan facility up to an aggregate principal amount up to \$38,000,000. The proceeds were disbursed to the Company under a revolving line of credit between the Company and the Borrowers (see Note 7). The Company used the proceeds from the line to repay the outstanding balance of the Company's term loan with Capital One. The remainder of the proceeds are to be used to finance future growth and for general corporate purposes of the Borrowers or the Company. The term loan provides for monthly payments of interest with a balloon payment at the end of the term. Each term loan shall either be a "Base Rate Loan" or "LIBOR Rate Loan" at the Borrowers' election. Each LIBOR Rate Loan shall bear interest on the outstanding balance at a rate equal to (a) the greater of LIBOR or 50 basis points plus (b) 7% and each Base Rate Loan shall bear interest on the outstanding balance at a rate equal to (y) the greater of the Prime Rate or 350 basis points, plus (z) 6%. The credit agreement has a maturity date of June 21, 2019. As of June 30, 2015, outstanding principal is \$20,000,000.

In November 2014, the Company closed an underwritten offering of 2,530,000 shares of its common stock at a public offering price of \$12.50 per share for total gross proceeds of \$31,625,000. The Company is using the proceeds to expand its financing activities and to primarily increase its activity in SBA 7(a) lending and make direct investments in portfolio companies in accordance with its investment objectives and strategies.

As more fully described below, the Company's SBA lender ("NSBF") will require additional funding sources to maintain current SBA loan originations under anticipated conditions; although the failure to find these sources may require the reduction in the Company's SBA lending and related operations, it will not impair the Company's overall ability to operate.

NSBF depends on the availability of licensed SBA lenders to purchase SBA loans held for sale transferred to the secondary markets and the premium earned therein to support its lending operations. At this time the secondary market for the SBA loans held for sale is robust. However, there can be no assurances that the market will continue in this manner.

NSBF has historically financed the operations of its lending business through loans or credit facilities from various lenders and will need to continue to do so in the future, as well as raise capital through the issuance of the Company's common stock. Such lenders invariably require a security interest in the SBA loans as collateral which, under the applicable law, requires the prior approval of the SBA. If the Company should ever be unable to obtain the approval for its financing arrangements from the SBA, or if it were otherwise unable to raise capital, it would likely be unable to continue to make loans.

As an alternative to holding indefinitely the portions of SBA loans remaining after sale of the guaranteed portions in the SBA supervised secondary market, NSBF has undertaken to securitize these unguaranteed portions. In December 2010, the first such securitization trust established by NSBF issued notes to one investor in the amount of \$16,000,000 which received an S&P rating of AA. A second securitization, an amendment to the original transaction, was completed in December 2011, and resulted in an additional \$14,900,000 of notes issued to the same investor. NSBF used the cash generated from the first transaction to retire its outstanding term loan from Capital One and to fund a \$3,000,000 account which during the first quarter of 2011

purchased unguaranteed portions originated subsequent to the securitization transaction. Similarly, the proceeds from the second securitization in 2011 were used to pay down its outstanding term loan with Capital One and to fund a \$5,000,000 account used to fund additional originations in the first quarter of 2012. Additional securitizations were completed in March 2013 and December 2013 resulting in the issuance of notes in the amount of \$20,909,000 and \$24,434,000, respectively. Similarly, the proceeds of both transactions were used to pay down the outstanding term loan with Capital One, and a combined total of \$12,945,000 was used to fund an account used to purchase unguaranteed portions of loans throughout 2013, and during the first quarter of 2014. While this securitization process can provide a long-term funding source for the SBA lender, there is no certainty that it can be conducted on an economic basis. In addition, the securitization mechanism itself does not provide liquidity in the short term for funding SBA loans. In December 2014, NSBF completed an additional securitization transaction which resulted in the transfer of \$36,000,000 of unguaranteed portions of SBA loans and an additional \$7,500,000 in loans which were issued subsequent to the transaction. The Newtek Small Business Loan Trust 2014-1 in turn issued securitization notes for the par amount of \$31,700,000 against the assets in a private placement. The notes received an "A" rating by S&P, and the final maturity date of the notes is July 2039. The proceeds of the transaction have been and will be used to repay debt and originate new loans.

In June 2014, the Company entered into a four year \$20,000,000 credit agreement with Capital One consisting of a \$10,000,000 term loan and a revolving line of credit of up to \$10,000,000. Principal and interest on the term loan was payable quarterly in arrears and the interest rate is Prime plus 250 basis points. The term loan was being amortized over a six year period with a final payment due on the maturity date. The interest rate on the revolving line of credit is also Prime plus 250 basis points and is payable monthly in arrears with the principal due at maturity. In addition, the revolving line accrued interest of 0.375% on the unused portion of the line which is payable quarterly in arrears. All outstanding principal was repaid and the credit facility was retired in June 2015.

In July 2013 the SBA lender, received an extension on the maturity of its warehouse lines of credit, totaling \$27,000,000 with Capital One from September 30, 2013 to May 31, 2015, at which time the outstanding balance would be converted into a three-year term loan. The extension also enhanced the terms of the credit facilities by removing the \$15,000,000 funding sublimit for the non-guaranteed portions of the SBA 7(a) loans NSBF originates, and increasing the advance rate to 55% from 50% for the non-guaranteed portions of the SBA 7(a) loans. As of June 30, 2015 and December 31, 2014, NSBF had \$26,322,000 and \$33,856,000 outstanding under the line of credit. The interest rate on the portion of the facility, collateralized by the government guaranteed portion of SBA 7(a) loans, is set at Prime plus 100 basis points, and there is a quarterly facility fee equal to 25 basis points on the unused portion of the revolving credit calculated as of the end of each calendar quarter. The interest rate on the portion of the facility, collateralized by the non-guaranteed portion of SBA 7(a) loans, is set at Prime plus 187.5 basis points, and there is a quarterly facility fee equal to 25 basis points on the unused portion of the revolving credit calculated as of the end of each calendar quarter. On October 29, 2014, NSBF, closed an additional \$23,000,000 in financing with Capital One which increased the existing revolving credit facility from \$27,000,000 to \$50,000,000. The amendment also extended the term of the facility from May 31, 2015 to May 16, 2018. In June 2015, NSBF amended its existing facility to eliminate the fixed charge coverage ratio in exchange for a debt service ratio, new EBITDA minimums, the elimination of restrictions on the Company's ability to pay dividends to its stockholders, as well as the release of the guarantees of the Company's former subsidiaries (now treated as portfolio companies). In addition, the amendment extended the date on which the facility will convert to a term loan from May 16, 2016 to May 16, 2017 and extended the maturity date of the facility to May 16, 2019. At June 30, 2015, the Company was in full compliance with applicable loan covenants.

As of June 30, 2015, the Company's unused sources of liquidity consisted of \$10,847,000 available through the combined Capital One facilities, \$6,092,000 in unrestricted cash, and \$226,000 in money market funds.

Restricted cash of \$18,498,000 as of June 30, 2015 is primarily held in NSBF. The majority, or \$17,330,000 of restricted cash, is related to NSBF, and includes amounts held in a prefunding account to be used to originate new loans, reserves in the event payments are insufficient to cover interest and/or principal with respect to the securitization, payments collected which are due to participants and amounts owed to the SBA.

In summary, Newtek generated and used cash as follows:

	Six Months Ended June 30, 2015	Six Months Ended June 30, 2014
Net cash provided by operating activities	\$ 3,433	\$ 11,352
Net cash used in investing activities	(70)	(16,530)
Net cash (used in) provided by financing activities	(15,084)	1,671
Net decrease in cash and cash equivalents	(11,721)	(3,507)
Cash and cash equivalents, beginning of period	17,813	12,508
Cash and cash equivalents, end of period	\$ 6,092	\$ 9,001

The summary presented above is not comparable due to cash flow presentation changes required as a result of the conversion to a BDC. The most significant change relates to the presentation of cash flows related to SBA debt investments/loans which are included in investing activities for the six months ended June 30, 2014 and operating activities for the six months ended June 30, 2015.

Net cash flows from operating activities decreased \$7,919,000 for the six months ended June 30, 2015. The decrease was primarily attributed to a decrease in broker receivables. The Company did not have any broker receivables at December 31, 2014 which caused the decrease in 2015. Broker receivables arise from investments/loans traded but not settled before period end and represent the amount of cash due from the purchasing broker; the amount varies depending on loan origination volume and timing of sales at period end. The decrease was offset by originations of SBA guaranteed and unguaranteed investments (net of repayments) of \$95,719,000 offset by proceeds from the sale of SBA guaranteed investments of \$119,969,000. As discussed below, originations and repayments were included in investing activities during the six months ended June 30, 2014 but are included in operating activities during the six months ended June 30, 2015.

Net cash used in investing activities primarily includes the originations and repayments of the unguaranteed portions of SBA loans for the six months ended June 30, 2014. As a result of the BDC Conversion, originations and repayments of SBA debt investments are included in operating activities for the six months ended June 30, 2015. Net cash used also includes the purchase of fixed assets. Net cash used in investing activities decreased by \$16,460,000 to cash used of \$70,000 for the six months ended June 30, 2015 compared to cash used of \$16,530,000 for the six months ended June 30, 2014. The decrease was due primarily to originations and repayments of SBA debt investments being included in operating activities subsequent to the conversion to a BDC. SBA debt investments, net of repayments were \$16,063,000 for the six months ended June 30, 2014.

Net cash (used in) provided by financing activities primarily includes the net borrowings and (repayments) on bank lines of credit and notes payable as well as securitization activities. Net cash provided by financing activities decreased by \$16,755,000 to cash used of \$15,084,000 for the six months ended June 30, 2015. In 2014 net principal payments on term loans were \$590,000 compared to principal payments of \$9,167,000 in 2015 related to the pay down of the Capital One term loan. Payments related to securitizations increased \$1,980,000 as a result of the additional securitization transaction completed in December 2014. Restricted cash related to securitizations increased \$6,412,000 in 2014 compared to a decrease of \$5,944,000 in 2015. The decrease is also attributed to \$3,985,000 of dividends paid in 2015 compared to no dividends paid in 2014. The decreases were offset by the \$19,119,000 in proceeds from the revolving line of credit with two controlled portfolio companies.

### Contractual Obligations

The following chart represents Newtek's significant obligations and commitments as of June 30, 2015, (in thousands):

Contractual Obligations	Payments due by period				
	Total	Less than 1 year	1-3 years	3-5 years	More than 5 years
Bank Notes Payable (a)	\$ 26,322	\$ 23,552 (b)	\$ —	\$ —	\$ 2,770 (c)
Securitization Notes Payable (d)	72,312	—	—	—	72,312
Note payable - related party	19,119	\$ —	\$ —	\$ 19,119	\$ —
<b>Totals</b>	<b>\$ 117,753</b>	<b>\$ 23,552</b>	<b>\$ —</b>	<b>\$ 19,119</b>	<b>\$ 75,082</b>

(a) Payable to Capital One: Interest rates range from 4.25% to 5.75%.

(b) Includes:

The amount outstanding on the NSBF Capital One guaranteed line. Amount payable upon sale of the guaranteed portions of loans which generally occurs within 0-60 days.

(c) Includes:

\$2,770,000 outstanding on the NSBF Capital One unguaranteed line, which converts to a three year term loan on May 16, 2017 maturing on May 16, 2019.

(d) Includes:

\$72,312,000 net of discount, of securitization notes with legal maturity of 30 years bearing interest at rates between London Interbank Offered Rate ("LIBOR") plus 3.45% to prime plus 0.75%; actual principal payments will be paid by cash flow in excess of that needed to pay various fees related to the operation of the Trust and interest on the debt.

### **Critical Accounting Policies**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. We have identified the following items as critical accounting policies.

### **Fair Value Measurements**

We value investments for which market quotations are readily available at their market quotations. However, a readily available market value is not expected to exist for many of the investments in our portfolio, and we value these portfolio investments at fair value as determined in good faith by our board of directors under our valuation policy and process. We may seek pricing information with respect to certain of our investments from pricing services or brokers or dealers in order to value such investments. We also employ independent third party valuation firms for certain of our investments for which there is not a readily available market value.

Valuation methods may include comparisons of the portfolio companies to peer companies that are public, the enterprise value of a portfolio company, the nature and realizable value of any collateral, the portfolio company's ability to make payments and its earnings, discounted cash flow, the markets in which the portfolio company does business and other relevant factors. When an external event such as a purchase transaction, public offering or subsequent equity sale occurs, we will consider the pricing indicated by the external event to corroborate the private equity valuation. Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the fair value of the investments may differ significantly from the values that would have been used had a readily available market value existed for such investments and may differ materially from values that may ultimately be received or settled.

Our board of directors is ultimately and solely responsible for determining, in good faith, the fair value of investments that are not publicly traded, whose market prices are not readily available on a quarterly basis or any other situation where portfolio investments require a fair value determination.

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). ASC 820 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three levels for disclosure purposes. The Company carries all investments at fair value. Additionally, the Company carries its credits in lieu of cash, notes payable in credits in lieu of cash, and servicing assets at fair value. The fair value hierarchy gives the highest priority (Level 1) to quoted prices in active markets for identical assets or liabilities and gives the lowest priority to unobservable inputs (Level 3). An asset or liability's classification within the fair value hierarchy is based on the lowest level of significant input to its valuation. The levels of the fair value hierarchy are as follows:

<b>Level 1</b>	Quoted prices in active markets for identical assets or liabilities. Level 1 assets and liabilities include debt and equity securities and derivative contracts that are traded in an active exchange market, as well as certain U.S. Treasury, other U.S. Government and agency mortgage-backed debt securities that are highly liquid and are actively traded in over-the-counter markets.
<b>Level 2</b>	Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities. Level 2 assets and liabilities include debt securities with quoted prices that are traded less frequently than exchange-traded instruments and derivative contracts whose value is determined using a pricing model with inputs that are observable in the market or can be derived principally from or corroborated by observable market data. This category generally includes certain U.S. Government and agency mortgage-backed debt securities, corporate debt securities, derivative contracts and residential mortgage loans held-for-sale.
<b>Level 3</b>	Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. Level 3 assets and liabilities include financial instruments whose value is determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation. This category generally includes certain private equity investments, retained residual interests in securitizations, residential mortgage servicing rights, and highly structured or long-term derivative contracts.

### **Valuation of Investments**

Level 1 investments are valued using quoted market prices. Level 2 investments are valued using market consensus prices that are corroborated by observable market data and quoted market prices for similar assets and liabilities. Level 3 investments are valued at fair value as determined in good faith by the Board, based on input of management, the audit committee and independent valuation firms that have been engaged at the direction of the Board to assist in the valuation of certain portfolio investment without a readily available market quotation at least once during a trailing twelve-month period under a valuation policy and a consistently applied valuation process.

When determining fair value of Level 3 debt and equity investments, the Company may take into account the following factors, where relevant: the enterprise value of a portfolio company, the nature and realizable value of any collateral, the portfolio company's ability to make payments and its earnings and discounted cash flows, the markets in which the portfolio company does business, comparisons to publicly traded securities, and changes in the interest rate environment and the credit markets generally that may affect the price at which similar investments may be made and other relevant factors. The primary method for determining enterprise value uses a multiple analysis whereby appropriate multiples are applied to the portfolio company's net income before net interest expense, income tax expense, depreciation and amortization ("EBITDA") or revenue. The enterprise value analysis is performed to determine the value of equity investments and to determine if debt investments are credit impaired. If debt investments are credit impaired, the Company will use the enterprise value analysis or a liquidation basis analysis to determine fair value. For debt investments that are not determined to be credit impaired, the Company uses a market interest rate yield analysis to determine fair value.

In addition, for certain debt investments, the Company may base its valuation on quotes provided by an independent third party broker.

Due to the inherent uncertainty of determining the fair value of Level 3 investments that do not have a readily available market value, the fair value of the investments may differ significantly from the values that would have been used had a ready market existed for such investments and may differ materially from the values that may ultimately be received or settled. Further, such investments are generally subject to legal and other restrictions or otherwise are less liquid than publicly traded instruments. If the Company were required to liquidate a portfolio investment in a forced or liquidation sale, the Company may realize significantly less than the value at which such investment had previously been recorded.

The Company's investments are subject to market risk. Market risk is the potential for changes in the value due to market changes. Market risk is directly impacted by the volatility and liquidity in the markets in which the investments are traded.

### **Income Recognition**

Interest on loan investments is accrued and included in income based on contractual rates applied to principal amounts outstanding. Interest income is determined using a method that results in a level rate of return on principal amounts outstanding. When a loan becomes 90 days or more past due, or if we otherwise do not expect to receive interest and principal repayments, the loan is placed on non-accrual status and the recognition of interest income is discontinued. Interest payments received on loans that are on non-accrual status are treated as reductions of principal until the principal is repaid.

We receive a variety of fees from borrowers in the ordinary course of conducting our business, including packaging fees, late fees and prepayment fees. All other income is recorded into income when earned.

Dividend income is recorded at the time dividends are declared. Distributions of earnings from a portfolio companies are evaluated to determine if the distribution is income or return of capital.

### **Income Taxes**

We will elect to be treated as a RIC under Subchapter M of the Code and operate in a manner so as to qualify for the tax treatment applicable to RICs. In order to qualify as a RIC, we are required to meet certain source of income and asset diversification requirements, and timely distribute to our stockholders at least 90% of investment company taxable income, as defined by the Code, for each tax year. We have made and intend to continue to make the requisite distributions to our stockholders, which will generally relieve us from U.S. federal income taxes.

Depending on the level of taxable income earned in a tax year, we may choose to retain taxable income in excess of current year distributions into the next tax year in an amount less than what would trigger payments of federal income tax under Subchapter M of the Code. We would then pay a 4% excise tax on such income, as required. To the extent that we determine that our estimated current year annual taxable income may exceed estimated current year distributions, we accrue excise tax, if any, on estimated excess taxable income as taxable income is earned.

Because federal income tax regulations differ from GAAP, distributions in accordance with tax regulations may differ from net investment income and realized gains recognized for financial reporting purposes. Differences may be permanent or temporary. Permanent differences are reclassified within capital accounts in the financial statements to reflect their tax character. Temporary differences arise when certain items of income, expense, gain or loss are recognized at some time in the future. Differences in classification may also result from the treatment of short-term gains as ordinary income for tax purposes.

### **New Accounting Standards**

In May 2015, the Financial Accounting Standards Board ("FASB") issued ASU 2015-07 "Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)." The update changes the requirements for the presentation of certain investments using the net asset value, providing a practical expedient to exclude such investments from categorization within the fair value hierarchy and make a separate disclosure. This ASU is effective for annual reporting periods beginning after December 15, 2015, and interim periods within those annual periods. The Company does not expect this guidance to have a material impact on its consolidated financial statements and disclosures.

In April 2015, the FASB issued ASU 2015-03, "Simplifying the Presentation of Debt Issuance Costs". This update requires that debt issuance costs be presented in the balance sheet as a direct deduction from the debt liability. This ASU is effective for interim and annual reporting periods beginning after December 15, 2015. Early adoption is permitted. The Company is evaluating the impact of this update to the consolidated financial statements.

### **Off Balance Sheet Arrangements**

There were no off balance sheet arrangements as of June 30, 2015 .

### **Recent Developments**

On July 23, 2015, the Company acquired Premier Payments LLC ("Premier"), as a new wholly owned, controlled portfolio company. Premier was owned 100% by a related party of the Company. The total purchase price was approximately \$16,483,000, of which \$14,011,000 was paid in cash and \$2,472,000 was paid in newly issued restricted shares of Newtek common stock. A total of 130,959 shares were issued which may not be sold or transferred for six months. The Company's board of directors, including a majority of independent directors, approved the transaction.

### **ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.**

We consider the principal types of risk in our investing activities to be fluctuations in interest rates and loan portfolio valuations and the availability of the secondary market for our SBA loans. Risk management systems and procedures are designed to identify and analyze our risks, to set appropriate policies and limits and to continually monitor these risks and limits by means of reliable administrative and information systems and other policies and programs.

NSBF primarily lends at an interest rate of prime, which resets on a quarterly basis, plus a fixed margin. The Capital One term loan and revolver lines as well as the securitization notes are on a prime plus a fixed factor basis. As a result, the Company believes it has matched its cost of funds to its interest income in its financing activities. However, because of the differential between the amount lent and the smaller amount financed a significant change in market interest rates will have a material effect on our income. In periods of sharply rising interest rates, our cost of funds will increase at a slower rate than the interest income earned on the loans we have made; this should improve our net investment income, holding all other factors constant. However, a reduction in interest rates will result in the Company experiencing a reduction in investment income; that is interest income will decline more quickly than interest expense resulting in a net reduction of benefit to investment income.

NSBF depends on the availability of secondary market purchasers for the guaranteed portions of SBA loans and the premium received on such sales to support its lending operations. At this time the secondary market for the guaranteed portions of SBA loans is robust but during the 2008 and 2009 financial crisis the Company had difficulty selling its loans for a premium; although not expected at this time, if such conditions did recur NSBF would most likely cease making new loans and could experience a substantial reduction in profitability.

We do not have significant exposure to changing interest rates on invested cash (includes cash and cash equivalents, restricted cash and money market funds) which was approximately \$24,816,000 at June 30, 2015. We do not purchase or hold derivative financial instruments for trading purposes. All of our transactions are conducted in U.S. dollars and we do not have any foreign currency or foreign exchange risk. We do not trade commodities or have any commodity price risk.

We believe that we have placed our demand deposits, cash investments and their equivalents with high credit-quality financial institutions. Invested cash is held almost exclusively at financial institutions of high credit quality. The Company invests cash not held in interest free checking accounts or bank money market accounts mainly in U.S. Treasury only money market instruments or funds and other investment-grade securities. As of June 30, 2015, cash deposits in excess of FDIC and SIPC insurance totaled approximately \$8,714,000.

### **ITEM 4. CONTROLS AND PROCEDURES.**

As of the period covered by this report, we, including our chief executive officer and chief accounting officer, evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended, or the Exchange Act). Based on our evaluation, our management, including the chief executive officer and chief accounting officer, concluded that our disclosure controls and procedures were effective in timely alerting management, including the chief executive officer and chief accounting officer, of material information about us required to be included in our periodic SEC filings. However, in evaluating the disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated, are based upon certain assumptions about the likelihood of future events and can provide only reasonable assurance of achieving the desired control objectives, and management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures. There has not been any change in our internal controls over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) that occurred during the period covered by this report that has materially affected, or is reasonably likely to materially affect, our internal controls over financial reporting.

## **PART II - OTHER INFORMATION**

### **ITEM 1. LEGAL PROCEEDINGS.**

In the ordinary course of business, the Company may from time to time be party to lawsuits and claims. The Company evaluates such matters on a case by case basis and its policy is to contest vigorously any claims it believes are without compelling merit. The Company is currently involved in various litigation matters.

On January 21, 2014, NCMIC Finance Corporation (“NCMIC”) filed a complaint against Universal Processing Services of Wisconsin, LLC (“UPS”), the Company’s merchant processing portfolio company, in the United States District Court for the Southern District of Iowa. The complaint asserts claims against UPS for breach of the UPS and NCMIC agreement for the processing of credit card transactions, and seeks monetary relief. The Company believes that the claims asserted in the complaint are wholly without merit and intends to vigorously defend the action.

As previously disclosed, during the quarter ended June 30, 2013, the Federal Trade Commission (the “FTC”) amended an existing complaint in the matter Federal Trade Commission v. WV Universal Management, LLC et al., pending in the United States District Court for the Middle District of Florida (the “Court”), to add UPS as an additional defendant on one count of providing substantial assistance in violation of the Telemarketing Sales Rule. On November 18, 2014, the Court issued an Order granting the FTC’s motion for summary judgment against UPS on the single count. Subsequently, the FTC filed motions for a permanent injunction and equitable monetary relief against UPS and the other remaining defendants. Prior to the Court hearing on the motions, UPS and the FTC reached a settlement on the FTC’s motion for a permanent injunction, subject to final approval of the FTC. On February 11, 2015, the Court granted the FTC’s motion for equitable relief against UPS and the other remaining defendants, ordering that the remaining defendants pay \$1,735,000 in equitable monetary relief. UPS has recorded a reserve for the full amount of the potential loss as of June 30, 2015. On May 19, 2015, the Court entered an equitable monetary judgment against NMS for approximately \$1,735,000.

Management has reviewed all other legal claims against the Company with counsel and has taken into consideration the views of such counsel, as to the outcome of the claims. In management’s opinion, final disposition of all such claims will not have a material adverse effect on the results of operations, cash flows or financial position of the Company.

In addition to the other information set forth in this report, you should carefully consider the factors discussed in Part I, “Item 1A. Risk Factors” in our Annual Report on Form 10-K for the fiscal year ended December 31, 2014, which could materially affect our business, financial condition and/or operating results. The risks described in our Annual Report on Form 10-K are not the only risks we face. Additional risks and uncertainties are not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or operating results. There have been no material changes from the risk factors set forth in our Annual Report on Form 10-K for the year ended December 31, 2014.

### **ITEM 1A. RISK FACTORS.**
