Second Quarter 2020 Lending Highlights

- Newtek Small Business Finance, LLC (“NSBF”) funded \$1.11 billion of U.S. Small Business Administration (“SBA”) Paycheck Protection Program (PPP) loans during the three months ended June 30, 2020.
- NSBF’s PPP lending activity contributed to record NII and ANII for the three months ended June 30, 2020.
- NSBF estimates that upwards of 130,000 PPP borrowers’ employees were retained with the funding of the \$1.11 billion in PPP loans.
- NSBF funded \$17.4 million of SBA 7(a) loans during the three months ended June 30, 2020.
- NSBF forecasts funding \$150.0 million in SBA 7(a) loans in the second half of 2020.
- NSBF renewed its existing \$150.0 million line of credit with Capital One Bank N.A. for a period of three years.

Barry Sloane, Chairman, President and Chief Executive Officer said, “We are extremely pleased to report record financial results across several key metrics for the three- and six-months ended June 30, 2020 given the difficulties in the economy due to the global pandemic. As an organization that has existed for over 22 years, with 20 years as a publicly traded company, we have weathered several difficult economic environments and have always persevered despite challenging circumstances, most recently demonstrated by our record performance for the first half of 2020. The Company recently declared a third quarter 2020 cash dividend of \$0.58 per share, payable on September 30, 2020 to shareholders of record as of September 21, 2020. With the payment of the third quarter 2020 dividend, the Company will have paid a total of \$1.58 per share for the first three quarters of 2020, which would represent a 9.7% increase over the dividends paid in the first three quarters of 2019 of \$1.44 per share.”

Mr. Sloane continued, “Due to the depth and breadth of experience of our lending team and the technological efficiencies in our lending platform, we were able to quickly reposition and adapt our business model to successfully participate in the Paycheck Protection Program (“PPP”) and were able to offer all of our existing SBA 7(a) borrowers and new clients the opportunity to apply for a PPP loan to assist them in keeping their business and employees intact. As of the close of business on August 4, 2020, NSBF funded \$1.15 billion of PPP loans in slightly over four months’ time, which is equivalent to approximately 2 years’ worth of NSBF’s SBA 7(a) production under normal operating circumstances. The PPP is legislatively scheduled to conclude on August 8, 2020, but we are hopeful there will be a third round of PPP funding, which we believe could provide the Company with the opportunity to generate additional income from the continued origination of PPP loans. We anticipate by August 8, 2020 we will have obtained approximately 10,200 new borrowers that obtained either loan approvals, or closed or funded loans through NSBF by borrowing money through the first two rounds of the already-legislated PPP. Additionally, we are hopeful that Congress will authorize the SBA to extend the current six-month term of providing payments of principal and interest on behalf of SBA 7(a) borrowers in regular (accrual) servicing status, for an additional three to six months. As of June 30, 2020, our SBA 7(a) loan portfolio in accrual status was 99.0% current with payments. We are hopeful that bipartisan support for small businesses will continue to provide benefits in both of these areas.”

Mr. Sloane further stated, “We are pleased that NSBF renewed its existing \$150.0 million line of credit with Capital One Bank N.A. for a period of three years. As previously announced, NSBF restarted its SBA 7(a) loan program and began accepting applications on June 29, 2020. Throughout the remainder of the year, we

will continue to participate in the SBA 7(a) loan program in a cautious and measured manner, selectively financing businesses based on the health of their financial statements, forward projections, focusing on companies with a 2- to 3-year operating history, hard collateral assets, pre-Covid-19 cash flows, liquidity to maintain their business and in geographical locations that were least affected by the current pandemic and economic slowdown. We are currently forecasting \$150 million of SBA 7(a) loan fundings for the second half of 2020.”

Mr. Sloane concluded, “Our participation in the PPP has enabled us to introduce Newtek’s and its portfolio companies’ lending ecosystem, technology offerings, and financial and business solutions across financing, payment processing, payroll, insurance, and IT solutions to several new alliance partners and clients. Additionally, our portfolio companies’ payment processing business has been recovering sequentially month over month, and its June and July processing volumes are recovering from steep declines in April and May. We believe this is a result of increased consumer spending as local and state economies continue to reopen across the U.S. While it is very challenging to forecast economic opportunities in the immediate future, and it may be difficult to match last year’s financial performance, we are cautiously optimistic about the second half of 2020, as well as the lending environment in 2021, with the potential for additional economic stimulus from the government and this pandemic hopefully in our rearview mirror.”

Use of Non-GAAP Financial Measures - Newtek Business Services Corp. and Subsidiaries

In evaluating its business, Newtek considers and uses ANII as a measure of its operating performance. ANII includes short-term capital gains from the sale of the guaranteed portions of SBA 7(a) loans and conventional loans, and capital gain distributions from controlled portfolio companies, which are reoccurring events. The Company defines ANII as net investment income (loss) plus net realized gains recognized from the sale of guaranteed portions of SBA 7(a) loan investments, less realized losses on non-affiliate investments, plus or minus loss on lease adjustment, plus the net realized gains on controlled investments, plus or minus the change in fair value of contingent consideration liabilities, plus loss on extinguishment of debt.

The term ANII is not defined under U.S. generally accepted accounting principles, or U.S. GAAP, and is not a measure of operating income, operating performance or liquidity presented in accordance with U.S. GAAP. ANII has limitations as an analytical tool and, when assessing the Company’s operating performance, investors should not consider ANII in isolation, or as a substitute for net investment income, or other consolidated income statement data prepared in accordance with U.S. GAAP. Among other things, ANII does not reflect the Company’s actual cash expenditures. Other companies may calculate similar measures differently than Newtek, limiting their usefulness as comparative tools. The Company compensates for these limitations by relying primarily on its GAAP results supplemented by ANII.

² Amount and timing of dividends, if any, remain subject to the discretion of the Company’s Board of Directors.
